TECHNOLOGY UPDATE

In third grade our students utilize technology in the computer lab setting. We began the year by teaching students safe ways to interact online through Disney's Surfswell Island website and Disney's Safety Smart video segments. Students have been using a grade level account to access google docs and type three different writing assignments. Through google docs students have become more familiar with the keyboard and have learned how to create google docs, change font style and size, edit their work with spell check, and insert pictures. We have determined how to find reputable sources and citing sources as students research different aspects of Ancient Rome. Students are currently creating digital stories with Microsoft Movie Maker with videos and photos taken the creation of Sea Shanties during our STEAM session. Students are also typing their research papers on google docs currently.
